

9mm Crosman Custom Co2 single-shot, 10" barrel

65gr .350 Speer ball, 80F., full pop, 10 shot p-band 333 353 20 3 346/17.3

65gr .350 ball, 80F., reduced power, 23 shot p-band 293 328 35 7 319/14.7

Reducing velocity by 10% and energy by 15% improved shot count by 130%... a very good trade!

This 9mm custom is based on a Crosman 2250 and has an after-market power-adjusting screw. 7/21/07

Nine consecutive 3 shot groups at 25 yards with Speer balls averaged .80" c-t-c.
