

**Crosman 180 .22 custom bulk-fill Co2 pistol conversion (from a Sears 180 rifle)**

14.3gr JSB,70 degrees,14" barrel,36 shot p-band	588	607	19	2	595/11.3
14.4gr JSB Express,96 degrees,14" barrel,10 shots	599	611	12	6	606/11.7
14.3gr JSB Express,90 degrees,11" barrel,5 shots	576	583	7	5	580/10.7
14.3 JSB,2200 PSI SamRam reg'ed,14 shot p-band*603	642	39	3		629/12.5

*\*It got 14 good shots at 12.5 foot-pounds from the 14" barrel when charged to 2200 PSI.*

*Given the awesome performance of the custom Sears 180 rifle, I had to build a Sears 180 pistol.*

*8/15/2010- Shot .80" & .50" c-t-c five-shot groups at 50 yards (with the 11" barrel).*

*5/18/2011- Five consecutive five-shot groups at 25 yards averaged .53" c-t-c in gusty winds*
