Summary

target for pcp airguns

Sports & Outdoor   >   Other Sports

Tags: `target` `airgun` `targets` `pcp` `wheeltarget`

A friend asked if i could make a target for him to shoot so i came up with this he seems happy with them as i get asked to print more he does'nt care on the colour so i use ends of reels. You can make the targets a different colour than the outta ring by adding a colour change at 1.2

i also made a multi target as well if you want it two colour its the same as the last one 1.2 layer
